We have included several blank copies of the weekly spelling template, which you may wish to use. If you feel the set weekly spelling are too tricky for your child please pick 6 spelling from this list and practise them daily. Likewise, if you notice that your child is spelling other common words incorrectly in their general writing you can create an additional spelling list to go alongside the weekly spellings. We recommend your child learns a minimum of 6 spellings a week (and a maximum of 10).
