

# Scrumptious the bunny

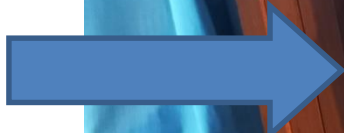

How to look after your pets ?

# Why we should look after are pets?

If we don't look after are pets they will die because they don't have enough food and water but also because they don't have a clean enough space to live in. It's healthy for your pet to have enough food and water a day.

Water

Water is important to most animals because it gives them hydration . Bunny's, Hamster's , Guini pigs and other small animals drink from a little bottle.

Feed Bowl

Food and salt licks are good and healthy for your pet .

Bedding makes your pet feel comfortable, I would suggest sawdust or newspaper.

## bed

A bed is a comftible place for your animal to sleep and have a rest.

Hope you follow are tips!
